**Compliance Letter for
Letter of Deficiency
WD WQE 03-08
Dated September 3, 2003**

Re: Hillside Gravel Pit, Route 142, Dalton, NH
RSA 485-A:17 Site Specific Permit #WPS-6065
Lots 36 and 37, Town of Dalton Tax Map 412

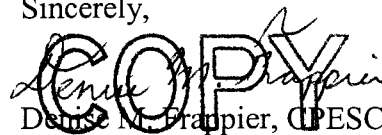

Dear Mr. Ingerson:

On November 6, 2003, personnel from the Water Division conducted an inspection at the Hillside Gravel Pit in Dalton, New Hampshire. The purpose of this visit was to determine compliance with RSA 485-A:17 and applicable rules promulgated pursuant thereto, and specifically whether the deficiencies noted in our letter of September 3, 2003 had been corrected.

During the inspection, DES documented that the berm between the pit and man-made ponds had been constructed and stabilized. On May 11, 2006, DES issued amended Site Specific Permit WPS-6065-A. Therefore, it has been determined that the deficiencies noted in our letter of September 3, 2003 have been corrected.

Thank you for your cooperation in resolving this situation. If you have any questions regarding this letter, please contact me at (603) 466-5910.

Sincerely,

Denise M. Prappier, CPESC
